

ROARRR!

Issue 4 / June 2009

THE NEWSLETTER OF KYIV LIONS CLUB

Saving lives

In the third issue of 'Roarr' we wrote about the work being undertaken by members and **Lion Dave Young's team from INS** to renovate some of the wards, bathrooms and operating theatres at the Children's ward at Neurosurgery Institute of the Academy of Medical Sciences of Ukraine. This is a major social project in which members have given their time, expertise and paint brushes to cleaning up and renovating what is a truly appalling situation. ▶ p.2

▶ On the 23rd of May **Anna and Lera from the band XS and Vadim from Mad Heads XL** came to the Institute to find out about ward's problems and to meet the children.

The stars were deeply moved by what they saw and at the same time amazed by the fact that doctors are performing miracles despite the conditions. After talking to Professor Orlov and playing with the kids they joined the Lions in the refurbishment works.

On the 6th of June **Gabriel Gatehouse from BBC World** visited the hospital to see what KLC members are doing for Ukrainian society. He too was appalled and has prepared

two 4 minute news clips that will be broadcast on BBC World Television and BBC World Service Radio on the 1st of July that will illustrate what KLC is doing to help in these difficult times. Don't forget to watch or listen.

The project is a fine example of what can be achieved by members simply contributing their time and effort.

If you would like to take part in finishing the work then please contact Lion Dave Young (dave.young@i-network-s.com) or Lion Neil Campbell (neil.free@btinternet.com) who are masterminding the work.
